Immerse your customers in a new and improved dining experience with **DineNGo**. Our software provides features including:

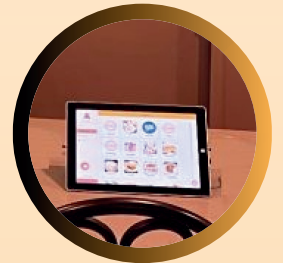

KIOSK

Turn any device with internet and a browser into a kiosk for your business or use our selection of **counter-top, wall mounted and floor standing kiosks** to provide customers with the finest dining experience with orders directly printing to the corresponding kitchen printer. From ordering to payment processing, DineNGo takes care of it all.

TABLE

Use any devices, or get our dedicated devices to use as a table ordering kiosk where customers may place an order and add to that order to their tab until they are ready to pay. Our table kiosks provide many features such as **games to keep the customers engaged and entertained** while they wait for their order. Optional features include Jukebox for customers to pay to have their music played for **extra income** to you.

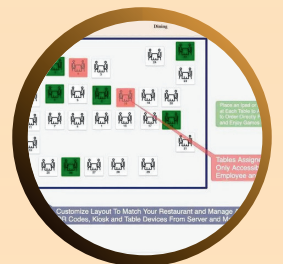

QR CODE ORDERING

DineNGo QR codes can be placed on tables for customers to scan and order directly from their mobile devices. Pair that with our **NFC** supported table stands to allow for tap support so customers can **scan the QR code or tap** their phone to the stand to begin ordering leaving you free to do what you do best, managing your restaurant.

DINENGO DINING

Create a layout of the tables in your restaurant and allow waiters and managers to add, view and manage orders placed on **table, kiosks and servers in one place** so you are never out of the loop. Once ready to pay, waiter can click the button on corresponding tables to generate an Apple Pay QR code customers can scan and finish payment or send the payment to a connected clover/square device to process payment.

MARKETING & WEBSITE

Keep Customers Informed about recent promotions through DineNGo's text message promotions feature. Send out a mass text to customers regarding updated offers and coupons, events and more. Also, Receive free marketing from us on all locations at no extra cost. DineNGo Includes a ordering Link you can add to your website for taking orders with **0% Commission**. Contact us to setup your **free website now!**

Dive into Exclusive Offers on our DineNGo Devices!

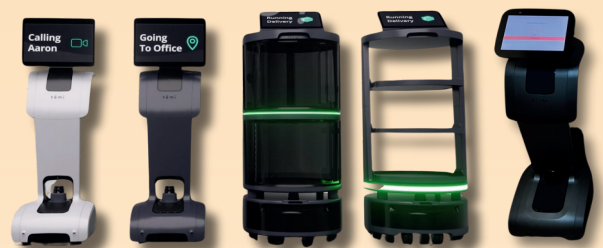

Our floor standing and counter top kiosks come in different sizes ranging from standard 12" screen kiosks to massive 32" screen kiosks with clover flex stands. These come fully integrated with DineNGo to take your restaurant to the next level. Whether you are looking for a countertop kiosk or floor standing kiosk, we have you covered. All restaurants and chains are moving to the future of contactless ordering making their business efficient, organized and cost efficient, and now so can you!

Our counter top order stands come with 2 designs and support **nfc and QR Code** ordering to make ordering and paying as seamless as a tap or scan, all integrated with your clover devices.

Bundle DineNGo With Our Low Rate Payment Processing: Get One of the lowest rate payment processing as low as **0 cents per transaction** once you bundle DineNGo with our Payment Processing. We can lower your transaction processing rates and pass on the saving to you. On Average, customers save upwards of \$500/month by switching to us. We offer state of the art clover devices with our advance DineNGo software to help you save and better manage your restaurant.

Coming 2024, our DineNGo Temi integration will take your customer's experience to a whole other level. Our Temi devices provide autonomous navigation, user detection, natural language processing, and artificial intelligence to provide a futuristic ordering experience, leaving your customers amazed all while saving you on employee costs. Temi's artificial intelligence allows it to auto detects user and navigates to them to take their order. Once order is complete, temi sends the payment to a connected clover device and sends it to the kitchen to be prepared. It can also memorize your restaurant layout and drop food off to designated tables. So why hire more employees when you can have Temi do it all! **Reserve yours now!**
